## EXPERIENCE

### Full-Stack Software Engineer

#### Easybooking TR

Sep 2024 - Ongoing

Antalya, Türkiye

Building, testing and deploying **B2B reservation** system with **Next.js** and **Node.js**.

### Part-time Software Developer

#### P.I. Works

Oct 2023 - Aug 2024

Remote, Istanbul, Türkiye

After my internship, I started as a Full-Stack Software Developer at P.I. Works. Now I am developing new features, increasing unit test coverage, and refactoring code smells for an **Angular-.NET** enterprise telco project **Experia**.

### Software Developer Intern

#### P.I. Works

Jul 2023 - Sep 2023

Remote, Istanbul, Türkiye

During the internship, I had a very intensive bootcamp that covered frontend development with Angular, backend development with .NET, and DevOps practices including building pipelines, containerization, and Kubernetes. I developed the following projects at the end of my internship:

- An internal RCA management tool for network incidents. It parses markdown-based documents in a GitLab pipeline, saves them in a database, and serves them with an Express.js API to an Angular SPA.
- Added YAML support to an internal configuration NuGet package.

### Frontend Software Developer

#### Linarit

Feb 2022 - Sep 2022

Antalya, Türkiye

**Linarit PQM** is a multidisciplinary R&D Industrial IoT project to monitor electrical power quality throughout the electricity distribution network. I worked with Electrical, Embedded Systems, Software Engineers, and academicians and developed major features for Single-Page Web Application with **React**. Some of the features I worked on:

- Real-time data visualization from IoT device to the frontend with gRPC.
- Client side cache implemented to reduce network traffic.
- Data processing scripts optimized.

### Co-Founder

#### Audiohealer

Sep 2021 - Jan 2022

Antalya, Türkiye

**Audiohealer** is a multiplatform application that cleans the background noise from audio automatically with AI. I worked with my professor on this project and created the mobile application with **Flutter** and deployed to Google Play and App Store.

## EDUCATION

### Computer Engineering Bachelor

#### Akdeniz University

Sep 2019 - Jun 2024

Antalya, Türkiye
